

## HDFS Task1

Perform

1. Start HDFS and verify that it's running
2. Create a new directory /exercise1 on HDFS
3. Upload GitHub repo sample\_data/deckofcards.txt to HDFS under /exercise1 directory
4. View the content of the /exercise1 directory
5. Determine the size of the hamlet.txt file in KB that resides on HDFS (not local directory)
6. Print the first 25 lines to the screen from deckofcards.txt on HDFS
7. Copy deckofcards.txt to deckofcardsCopy.txt
8. Copy deckofcards.txt back to local file system and name it deckofcards.copy.txt
9. Check the entire filesystem for inconsistencies/problems
10. Delete deckofcards.txt from HDFS
11. Delete the /exercise1 directory from HDFS
12. Take a second to look at other available shell options

Instead of Exercise1 I have created the directory as **mydir**

The screenshot shows a terminal window titled 'cloudera@quickstart:~' within a virtual machine environment. The terminal output shows the following sequence of commands and results:

```
cloudera@quickstart:~$ clear
[cloudera@quickstart ~]$ hostname
quickstart.cloudera
[cloudera@quickstart ~]$ hdfs dfs -ls /user/mydir
[cloudera@quickstart ~]$ start dfs.sh
start: Unknown job: dfs.sh
[cloudera@quickstart ~]$ start-dfs.sh
bash: start-dfs.sh: command not found
[cloudera@quickstart ~]$ start -dfs.sh
start: invalid option: -d
Try 'start --help' for more information.
[cloudera@quickstart ~]$ hdfs dfs -put /home/cloudera/Documents/deckofcards /user/mydir
put: '/home/cloudera/Documents/deckofcards': No such file or directory
[cloudera@quickstart ~]$ hdfs dfs -put /home/cloudera/Documents/deckofcards.txt /user/mydir
[cloudera@quickstart ~]$ hdfs dfs -ls /user/mydir
Found 1 items
-rw-r--r-- 1 cloudera supergroup      693 2021-06-12 01:32 /user/mydir/deckofcards.txt
[cloudera@quickstart ~]$ hdfs dfs -get /user/mydir/deckofcards.txt /home/cloudera/Pictures
[cloudera@quickstart ~]$
```

The desktop background features the Cloudera logo and various application icons like 'Computer', 'Launch Cloudera Enterprise', 'Eclipse', 'Configure Kerberos', 'Launch Cloudera Express', 'Migrate to Parcels', and 'Trash'. The taskbar at the bottom shows the Windows search bar and several application icons, including a web browser and a file manager.
